

Diesel System Super Clean

Product Description:

Formulated to meet the strenuous demands of modern diesel systems, **AUTOPROFI Diesel System Super Clean** eliminates the contamination that occurs with regular operation of diesel vehicles, leaving the diesel fuel system clean from the fuel tank to the combustion chambers. In addition to cleaning injectors for improved fuel economy and lubricating the entire diesel system, **Diesel System Super Clean** also:

- Removes resin deposits
- Releases sticking injection nozzles and injection pumps
- Promotes reliable operation of catalytic converters with extended service life when used regularly as part of a preventative maintenance regimen.

Provides optimum lubrication according to DIN 590 HFRR.

For use ONLY in vehicles with diesel engines; highly recommended for direct fuel injection and common-rail systems.

Directions for Use:

Once every 6 months, add one can to your diesel fuel tank before filling up.

1. Begin with a near-empty fuel tank.
2. Open the cap on the diesel tank and pour Diesel System Super Clean into the tank.
3. Fill the tank with fuel.
4. Enjoy optimized fuel economy, performance and engine protection.

Technical Specifications:

Application Fields: For all diesel engines, particularly recommended for direct fuel injection and common-rail systems

Reaction Time: Works during operation

Consumption: 250ml for 15 gallons (approx. 60 liters) of diesel fuel

Packaging Units: 250 ml

Part Number: 43246
